Summary

Enthusiastic Computer Science student with strong programming skills in C and a foundational understanding of Java and Python. Experienced in web development using HTML, CSS, PHP, and MySQL. Quick learner with problem-solving, analytical, and teamwork skills, eager to apply technical expertise and grow in a challenging environment.

Projects

Placement Portal

Placement-Portal-PESITM

- Developed a basic web-based placement portal as part of an academic mini project to facilitate coordination between students, HOD, and the placement officer.
- The system allows students to register, manage profiles, and view placement opportunities, while enabling the HOD and placement officer to access and manage student data.
- Tools Used: PHP, XAMPP

Skills

Languages: C, Java, Python

Database: MySQL

Soft Skills: Quick learner, Teamwork, Problem-solving, Eagerness to learn

Hackathon

Save and Serve

Feb 2025

- Developed a web platform to connect food donors with NGOs and volunteers for distribution.
- Implemented core functionalities including user authentication and role-based dashboards for donors, NGOs, and volunteers.
- Tools Used: PHP, XAMPP

Certifications

- IBM Data Science - Coursera
- Social Networks - NPTEL
- Cyber Security Essentials - Cisco
- Introduction to Artificial Intelligence - Infosys Springboard
- Machine Learning Fundamentals - Infosys Springboard
